

E-Mail On The Go

Do you remember life before the FAX machine? How about before e-mail? How did we ever manage? As busy as we all are today, it is even more important to receive important e-mail when we are away from the computer, but how?

Wireless E-mail! Stay connected with a pager from us: it's easy and inexpensive! Here is how it works:

Sign up for wireless e-mail.

Receive your own wireless e-mail address (and optional forwarding).

Start receiving e-mails on your pager!

Now any text e-mail up to 500 characters will be sent to your pager immediately and (optionally) forwarded to your regular e-mail account so that you can save, print, reply etc.

With wireless e-mail, you can also receive sports scores, stock market prices, weather forecasts and alerts, online auction alerts, horoscope, etc. To receive these automated e-mails, you must tell the sender:

Your wireless e-mail address,

Send e-mail as plain text and,

Limit each e-mail to 500 characters.

There are many places on the Internet to sign up for these alerts., one place is

<http://resourcecenter.msn.com/connect/default.asp> Our April newsletter included a lot of uses and ideas. You can download back issues of our newsletter at <http://www.rogerstwoway.com/april.pdf>

If you have questions, a special application or need please call or e-mail!
